About RANCHI

Ranchi, the capital city of Jharkhand offers startling richness and diversity of experience. It is located at an altitude of 2,140 feet in the valley of Chhotanagpur. Ranchi has an undeniable charm and its famous waterfalls, verdant hills and forest are excellent spots for photography and other recreational activities. This innovative city is impressively diverse. It is also the leaping off point for the Betla National Park that lures wildlife enthusiasts to this eastern state of India. As compelling as the capital can be, come, spend a few days at Ranchi. Getting around is incredibly easy via well-connected road and air routes.

Ranchi, the capital of Jharkhand is also called as city of waterfalls and lakes. Dassam falls is 34 km from Ranchi, where a tributary of Subarnarekha River falls from an altitude of 144 ft. Hundru fall is about 45 km, where the Subarnarekha River falls from a height of 320 ft. Jonha Falls also known as Gautamdihara, is around 40 Km.

Ranchi offers an authentic blend of cuisines, typically of tribal influences, that consist of a wide spectrum of homemade dishes such as a plateful of ChannaBhatura, which can be enjoyed with a refreshing glass of Sattu. The streets in Doranda offer many a gastronomic treat for food lovers, brimming with miniature golgappa stalls and local kulfi parlors. As you walk through a tantalizing trail of aromas, grab a bite of littichokha – a delicious fried bun made from gram flour that is a favorite among locals, who love having this spicy snack with a steaming cup of masala chai tea.

Ranchi is famous for its ethnic handicrafts and metal work, all of which are exhibited at Firayalal, one of the most popular shopping destinations for tribal souvenirs. Paitkar art, that showcases the cultural heritage of Eastern India, is an indigenous craft fostered by tribal artists who indulge in scroll painting to foretell historical events. The ancient lineage of Paitkar paintings is only part of Firayalal's beautiful artistic spread, which also includes the Ranchi Handloom Emporium and Bareja Handloom Emporium.

About RKDF UNIVERSITY RANCHI

It was in the year 2018, The founder decided to fulfil his dream of establishing an institute for quality education to the people and the region & beyond initiated “Ayushmati Education And Social Society” trust in an attempt to make the holy city of Ranchi, a recognized destination for knowledge seekers from different spheres of life and strive to become one of the best Universities in Jharkhand. This is what led to the foundation of a milestone at the karmabhoomi of the versatile and sagacious Bhagwan Birsa Munda. RKDF group has been actively involved with social causes since its very inception and has drawn appreciation from one and all for its works in various facets of societal paradigms. The Group started its journey in 1994 by establishing 1st private engineering college at Bhopal, Madhya Pradesh. Now the group has 162 institutions & 6 universities (5 in M.P. and one in Jharkhand). The six universities and social society as established by Ayushmati Education are RKDF University, Bhopal (2011), Sri Satya Sai University of Technology & Medical Science Sehore (2014), Sarvepalli Radhakrishna University, Bhopal (2015), Dr. A.P.J. Abdul Kalam University, Indore (2016), Bhabha University, Bhopal (2018), RKDF University, Ranchi (2018)

About the **Department.....**

The Faculty of Life Sciences offers diverse programs covering areas such as Zoology, Botany, Biochemistry, Microbiology Biotechnology, and related disciplines. The faculty is likely to emphasize hands-on practical training, research projects, and collaboration with industries or research institutions to provide students with a well-rounded education in life sciences. The university's commitment to fostering a conducive learning environment, along with experienced faculty members and state-of-the-art facilities, is contributing to the overall academic experience for students pursuing studies in life sciences. The Dept. of Life Science, RKDF University, Ranchi also received **a sponsored project from Central Coal Fields Limited; Ranchi** (A Mini Ratna Govt. Undertaking) entitled **"Treating the Infected Trees with the Help of Tree Ambulance"**. The purpose behind this unique initiative is to treat infected trees and plants. So, under the initiative, which is one of its kind, we not only plant trees but also ensure that the trees are being taken care of.

The Department of Engineering aim is to address the world's most pressing challenges with science and technology. To achieve this aim, the department collaborates with other disciplines, institutions, companies and entrepreneurs and adopts an integrated approach to research and teaching. The department imparts practical insights to the students through well equipped state-of-art laboratories, Industrial visits and value addition courses. Engineering department offered Diploma, B.Tech. and PhD degree programmes in Mechanical, Civil, Mining Computer Science and Electrical and Electronics Engineering.

The faculty of Basic science was founded in the year 2018 and since then it has steadily developed into a leading Centre of research and teaching in RKDF University Ranchi. Students can pursue Chemistry, Physics, Mathematics and specialized courses like Applied Chemistry, Applied Physics, Applied mathematics. The department also caters to diverse fields, offerings Bachelor of Science, and Master's programs in Biochemistry, along with B.Pharm and D.Pharm courses. With a commitment to excellence in education, the department at RKDF University Ranchi prepares students for successful careers in the chemical and pharmaceutical industries, fostering a strong foundation in both traditional and emerging disciplines within the field of basic science. The faculty is likely to emphasize hands-on practical training, research projects, and collaboration with industries or research institutions to provide students with a well-rounded education in basic science. The university's commitment to fostering a conducive learning environment, along with experienced faculty members and state-of-the-art facilities, is contributing to the overall academic experience for students pursuing studies in basic science.

About the Conference.....

Welcome to Symbiosphere2024, where innovation converges with collaboration on a global scale! This international conference is a unique platform that unites trailblazers, thought leaders, and visionaries from diverse fields to catalyze transformative change. As we delve into the latest advancements in technology, sustainability, and interdisciplinary research, Symbiosphere2024 creates an unparalleled nexus for networking and knowledge exchange. Join us to explore cutting-edge insights, forge strategic partnerships, and contribute to the collective intelligence shaping the future. Elevate your impact, expand your horizons, and be part of a dynamic ecosystem at Symbiosphere2024 – where ideas flourish and alliances thrive. Seize this opportunity to be at the forefront of progress and redefine the boundaries of innovation!

Step into the future of innovation and collaboration at Symbiosphere2024, the premier international conference that unites visionary minds from across the globe. Join us for an unparalleled opportunity to network with industry leaders, engage in groundbreaking discussions, and explore cutting-edge technologies shaping our world. From transformative advancements in artificial intelligence to sustainable solutions for a greener planet, Symbiosphere2024 promises to ignite inspiration and drive lucrative partnerships. Don't miss your chance to be at the forefront of progress - reserve your seat today and unlock the potential of tomorrow.

In an era characterized by rapid technological advancements, environmental challenges, and global interconnectedness, the Symbiosphere 2024 conference seeks to explore the intricate web of relationships that bind us as a global community. The theme, "Navigating the Future Together," underscores the imperative of collaboration, adaptability, and sustainable practices to address the complexities of our evolving world.

Announcement/ Invitation.....

Dear Fellow Scientists, Scholars, Faculties, Entrepreneurs and Students, On behalf of the Organizing Committee of “SymbioSphere” 2024, it is our great privilege to extend an invitation to the international conference entitled “*SymbioSphere 2024: Navigating the Intersection of Science, Technology, and Eco-friendly Solutions towards Sustainability.*”

This important event, to be hosted at RKDF University, Ranchi, Jharkhand, India, aims to be a confluence of ideas and innovations in the realm of different aspects of Life Science, Basic Science & Engineering.
